The World-Famous Confetti Pelino of Sulmona

Now Available Direct from Italy

The world-famous, prize-winning, sugar-coated candies known as “confetti” are now available from the House of Pelino in the United States —still made by hand in a four-day process with a recipe over 300 years old and with much of the original equipment. The candies—with centers of almonds, chocolate or other delicacies—are made without flour or other starches, making them delicious and unlike any other confetti.

These fine candies can be enjoyed on their own, or used in custom-made favors. White for weddings, silver for 25th anniversaries, gold for 50th anniversaries, baby blue or pink for christenings, baptisms, showers and births, red for graduations, green for engagements.... with centers of almonds, chocolates, hazelnuts, cinnamon, anise, liqueurs, coffee beans, peanuts, pistachios and marzipan...in party favors, flower arrangements, gift baskets, gift boxes and decorative bags.

The confetti are also used to make beautiful, hand-crafted flowers, which come in many varieties and colors, and make unique gifts and decorations.

Our offerings include:
